I am a beginner Front-End Developer with experience working on web projects, seeking to improve my skills and gain experience in a team of developers. I have good knowledge of HTML, CSS, JavaScript, and React js. I am always striving to improve my skills and enhance the results of my work.

Skills:

- HTML/CSS, JavaScript
- React
- Redux
- Redux Toolkit
- TypeScript
- Git

- Skills in developing responsive and cross-browser designs

- Experience working with Sass

- Experience working with libraries such as Material UI, Bootstrap, etc.

I am eager to develop as a Front-End Developer and would like to join a team that can provide me with opportunities to grow and improve in this field. I am excited to discuss the possibility of working at your company..

Education:

- Master's Degree in Economics and Enterprise Organization, Staropolska Wyższa Szkoła w Kielcach, 2021

Courses:

- Stock Trading/Blockchain Technologies (2 years)

- Front-End (JS, React, Redux)

Work Experience:

- Customer Relations Manager (Banks) - 1 year

- Sales Manager (Education) - 1 year

- Logistics Specialist - 1 year

Languages:

- Ukrainian - fluent

- Polish - B1

- English - A2
